Happy New Year!

.....

As I'm sure you're aware, I have never written a new letter before but I hope this will be the first of many during 2021. The purpose of this letter is to let you all know what's in store for Beauty at Obelisk in 2021, and to stay connected with you during #3 lockdown.

.....

*Stay home
stay safe*

I'd just like to start by wishing you a Happy New Year, although I appreciate it's not the best start to 2021, being placed in another national lockdown.

Nonetheless I do hope this update finds you and your families safe and well, and your thoughts are more on the positive side knowing that the solution to all this madness is just around the corner.

Introducing Three Brand New Treatments

**** Indonesian Mande Lular Massage ****

**** Thai Foot Massage ****

**** Back Scrub & Massage ****

Last year the salon was closed for around 5 months and there was no way I was going to sit around and do nothing, so I employed most of my time by studying three new treatments. And I'm so excited to be able to start offering these treatments to you this year.

These treatments are all holistic based and can be located under the holistic section on Beauty at Obelisk website. I hope you'll take time to explore them all and hopefully once I'm operational again, you can book yourself in for one...or all of them if like?!

I have outlined the services available and what you can expect from them below and I'm very much looking forward to seeing you over zoom or when making very special deliveries to you.

Isn't the power of technology a wonderful thing...if you know me we'll, you'll know that I rarely say this statement as I'm a complete technophobe!!! However I have got the hang of using Zoom and this free service I have put together allows us to sit down with a cuppa and have a chat about your skin and the specific concerns you have. I can carry out a skin profiling analysis, and put together valuable advice and recommendations that are sure to help to address the concerns you have.

Operation Ouch

.....

Have you overindulged over Christmas and New Year? I know I have and I was most shocked when I looked down to see what the scales were telling me. It's certainly given me a slap round the face and motivated me to get back exercising again and eating more responsibly. But I do understand what comes with a sudden change in routine. You have muscles that ache in places you didn't think was possible and your left thinking is it really worth the pain!

Again using good old Zoom, I can help you with your aches and pains whether it's work, stress or exercise related. We can have a chat so you can tell me what's happening and I can then take a look at the area of concern, recommend stretches, exercises and products that can help reduce any discomfort you might be experiencing. Sometimes just talking to someone can also help you keep motivated when you're feeling like you're not getting anywhere or a bit down in the dumps.
